

CGCT-8

*The 8th
Asian Conference
on Crystal Growth
and Crystal
Technology.*

Oct.19-22, 2020 Phoenix Seagaia Resort, Miyazaki, Japan.

*Science and Technologies Related to
Crystal Growth in Following Fields.*

- III-V Semiconductors and Oxide Semiconductors
- Group-IV Semiconductors
- Optical Crystals
- Scintillator and Piezoelectric Crystals
- Superconductors, Spintronic and Strongly Correlated Electronic Materials
- Organic and Biological Materials
- Crystall Growth Fundamentals and Simulation
- Characterization
- Photoelectric and Thermoelectric Conversion Materials
- Environmental Related Materials and Energy Harvest Materials
- Others

*Organizing Associations.
(Incl. expected)*

- The Asian Association for Crystal Growth and Crystal Technology
- No.161 Committee of the Japan Society for the Promotion of Science
- Materials Science and Advanced Electronic Created by Singularity, Grant-in-Aid for Scientific Research on Innovative Areas, MEXT
- The Japanese Association for Crystal Growth

**Please visit our official URL: [Now under construction]
This Conference is Sponcered by Following Organizations.(Incl. expectaion)**
